Re.: Search Engine Optimization

Dear Mrs. Rhodd,

The following page is your META Keyword Analysis Report. The green plus signs means the tag is fully optimized.

As you will see from the report, in order to increase your chances at getting picked up and indexed to the top of search engines and online directories the following applies:

- Your keywords must not exceed 250 characters including spaces
- Your description must not exceed 200 characters including space

Feel free to change the description; however, stick to the above rules in doing so.
